## PART 2676—[AMENDED]

3. The authority citation for part 2676 continues to read as follows:

Authority: 29 U.S.C. 1302(b)(3), 1399(c)(1)(D), 1441(b)(1).

4. In appendix B, Rate Set 27 is added to Table I, and a new entry is added to Table II, as set forth below. The introductory text of both tables is republished for the convenience of the reader and remains unchanged.

## Appendix B to Part 2676—Interest Rates Used To Value Lump Sums and Annuities

**Lump Sum Valuations** 

In determining the value of interest factors of the form  $v^{0n}$ : (as defined in § 2676.13(b)(1)) for purposes of applying the formulas set forth in § 2676.13 (b) through (i) and in determining the value of any interest factor used in valuing benefits under this subpart to be paid as lump sums, the PBGC shall use the values of  $i_t$  prescribed in Table I hereof. The interest rates set forth in Table I shall be used by the PBGC to calculate benefits payable as lump sum benefits as follows:

(1) For benefits for which the participant or beneficiary is entitled to be in pay status on the valuation date, the immediate annuity rate shall apply.

(2) For benefits for which the deferral period is y years (y is an integer and  $0 < y \pm n_1$ ), interest rate  $i_1$  shall apply from the valuation date for a period of y years; thereafter the immediate annuity rate shall apply.

(3) For benefits for which the deferral period is y years (y is an integer and  $n_1 < y \le n_1 + n_2$ ), interest rate  $i_2$  shall apply from the valuation date for a period of  $y - n_1$  years, interest rate  $i^1$  shall apply for the following  $n_1$  years; thereafter the immediate annuity rate shall apply.

(4) For benefits for which the deferral period is y years (y is an integer and  $y > n_1 + n_2$ ), interest rate  $i_3$  shall apply from the valuation date for a period of  $y - n_1 - n_2$  years, interest rate  $i_2$  shall apply for the following  $n_2$  years, interest rate  $i_1$  shall apply for the following  $n_1$  years; thereafter the immediate annuity rate shall apply.

TABLE I
[Lump sum valuations]

Rate set	For plans with a valuation date		Immediate an-	Deferred annuities (percent)						
	On or after	Before	nuity rate (per- cent)	i <sub>1</sub>	i <sub>2</sub>	i <sub>3</sub>	$n_1$	$n_2$		
*	*	*		*	*	*	*			
27	1-1-96	2-1-96	4.50	4.00	4.00	0 4.00	7	8		

## **Annuity Valuations**

In determining the value of interest factors of the form  $v^{0n}$ : (as defined in § 2676.13(b)(1)) for purposes of applying the formulas set forth in § 2676.13(b) through (i) and in determining the value of any interest factor

used in valuing annuity benefits under this subpart, the plan administrator shall use the values of i, prescribed in the table below.

The following table tabulates, for each calendar month of valuation ending after the effective date of this part, the interest rates (denoted by  $i_1$ ,  $i_2$ , \* \* \*, and referred to

generally as i,) assumed to be in effect between specified anniversaries of a valuation date that occurs within that calendar month; those anniversaries are specified in the columns adjacent to the rates. The last listed rate is assumed to be in effect after the last listed anniversary date.

TABLE II
[Annuity valuations]

For valuation dates accurring in the month					The values of i <sub>t</sub> are:						
For valuation dates occurring in the month—				İ <sub>t</sub>	for t =	İ <sub>t</sub>	for t =	i <sub>t</sub>	for t =		
*	*	*	*	*		*		*			
January 1996				.0560	1–20	.0475	>20	N/A	N/A		

Issued in Washington, DC, on this 11th day of December 1995.

Martin Slate,

Executive Director, Pension Benefit Guaranty Corporation.

## ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 60

[FRL-5346-7]

Standards of Performance for New Stationary Sources; Supplemental Delegation of Authority to Mississippi

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Informational notice.

**SUMMARY:** On September 29, 1995, the state of Mississippi, through the Department of Environmental Quality, requested that EPA delegate authority for implementation and enforcement of

an amended category of the New Source Performance Standards (NSPS). Since EPA's review of Mississippi's pertinent laws, rules, and regulations showed them to be adequate and effective procedures for the implementation and enforcement of these Federal standards, EPA has made the delegation as requested.

**EFFECTIVE DATE:** The effective date of the delegation of authority is October 30, 1995.

ADDRESSES: Copies of the request for delegation of authority and EPA's letter of delegation are available for public inspection during normal business hours at the following locations.

Environmental Protection Agency, Region 4, Air Programs Branch, 345 Courtland Street, Atlanta, Georgia 30365.

Mississippi Department of Environmental Quality, Bureau of Pollution Control, Air Quality Division, P.O. Box 10385, Jackson, Mississippi 39289–0385.

Effective immediately, all requests, applications, reports and other correspondence required pursuant to the newly delegated standards should not be submitted to the Region 4 office, but should instead be submitted to the following address: Office of Pollution Control, Mississippi Department of Environmental Quality, P.O. Box 10385, Jackson, Mississippi 39289–0385.

FOR FURTHER INFORMATION CONTACT: Scott M. Martin, Regulatory Planning and Development Section, Air Programs Branch, United States Environmental Protection Agency, Region 4, 345

Courtland Street N.E., Atlanta, Georgia 30365, (404) 347–3555, x4216.

**SUPPLEMENTARY INFORMATION:** Section 301, in conjunction with Sections 110 and 111(c)(1) of the Clean Air Act as amended November 15, 1990, authorizes EPA to delegate authority to implement and enforce the standards set out in 40 CFR Part 60, (NSPS).

On November 10, 1981, EPA initially delegated the authority for implementation and enforcement of the NSPS programs to the state of Mississippi. On September 29, 1995, Mississippi requested a delegation of authority for implementation and enforcement of the following NSPS category found in 40 CFR Part 60.

Automobile and Light Duty Truck Surface Coating Operations, as amended by 59 FR 51383 (October 11, 1994), as specified in 40 CFR 60, Subpart MM.

After a thorough review of the request, the Regional Administrator determined that such a delegation was appropriate for this source category with the conditions set forth in the original delegation letter of November 30, 1981. Mississippi sources subject to the requirements of this subpart will now be under the jurisdiction of Mississippi.

Since review of the pertinent Mississippi laws, rules, and regulations showed them to be adequate for the implementation and enforcement of the aforementioned category of NSPS, the EPA hereby notifies the public that it has delegated the authority for the source category listed above on October 30, 1995. The Office of Management and Budget has exempted this rule from the requirements of section 6 of Executive Order 12866.

Authority: This notice is issued under the authority of sections 101, 111, and 301 of the Clean Air Act, as Amended (42 U.S.C. 7401, 7411, and 7601).

Dated: November 22, 1995.

Patrick M. Tobin,

Acting Regional Administrator.

National Emission Standards for Hazardous Air Pollutants for Shipbuilding and Ship Repair (Surface Coating) Operations

**AGENCY:** Environmental Protection

Agency (EPA). **ACTION:** Final rule.

SUMMARY: This action promulgates national emission standards for hazardous air pollutants (NESHAP) under Section 112 of the Clean Air Act as amended in 1990 (CAA) for shipbuilding and ship repair (surface coating) operations. The NESHAP requires existing and new major sources to control emissions using the maximum achievable control technology (MACT) to control hazardous air pollutants (HAP).

The MACT described herein is based on maximum HAP limits for various categories of marine coatings. Surface coating operations at shipyards are the focus of the NESHAP, and a variety of HAP are used as solvents in marine coatings. The HAP emitted by the facilities covered by this final rule include xylene, toluene, ethylbenzene, methyl ethyl ketone, methyl isobutyl ketone, ethylene glycol, and glycol ethers. All of these pollutants can cause reversible or irreversible toxic effects following exposure. The potential toxic effects include irritation of the eye, nose, throat, and skin and damage to the blood cells, heart, liver, and kidneys. The final rule is estimated to reduce baseline emissions of HAP by 24 percent or 318.5 megagrams per year (Mg/yr) (350 tons per year (tpy)).

The emissions reductions achieved by these standards, combined with the emissions reductions achieved by similar standards, will achieve the primary goal of the CAA, which is to "enhance the quality of the Nation's air resources so as to promote the public health and welfare and productive capacity of its population". The intent of this final regulation is to protect the public health by requiring the maximum

degree of reduction in emissions of volatile organic hazardous air pollutants (VOHAP) from new and existing sources, taking into consideration the cost of achieving such emission reduction, any nonair quality, health and environmental impacts, and energy requirements.

**DATES:** The effective date is December 15, 1995. Incorporation by reference of certain publications listed in the regulations is approved by the director of the Federal Register as of December 15, 1995.

**ADDRESSES:** Background Information *Document.* The background information document (BID) for the promulgated standards may be obtained from the U.S. Department of Commerce, National Technical Information Service (NTIS). Springfield, Virginia, 22161, telephone number (703) 487-4650. Please refer to "National Emission Standards for Hazardous Air Pollutants for Shipbuilding and Ship Repair Facilities (Surface Coating)—Background Information Document for Final Standards," EPA-453/R-95-016b. The BID contains (1) a summary of the changes made to the standards since proposal and (2) a summary of all the public comments made on the proposed standards and the Administrator's response to the comments.

Electronic versions of the promulgation BID as well as this final rule are available for download from the EPA's Technology Transfer Network (TTN), a network of electronic bulletin boards developed and operated by the Office of Air Quality Planning and Standards. The TTN provides information and technology exchange in various areas of air pollution control. The service is free, except for the cost of a phone call. Dial (919) 541-5742 for data transfer of up to a 14,400 bits per second. If more information on TTN is needed, contact the systems operator at (919) 541-5384.

Docket. Docket No. A–92–11, containing supporting information used in developing the promulgated standards, is available for public inspection and copying from 8 a.m. to 5:30 p.m., Monday through Friday, at the EPA's Air and Radiation Docket and Information Center, Waterside Mall, Room M–1500, Ground Floor, 401 M Street SW, Washington, DC 20460. A reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: Dr. Mohamed Serageldin at (919) 541–2379, Emission Standards Division (MD–13), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711.
